

ISEOLUWA OSHO

oshoiseoluwa@gmail.com | +234 811 047 0908 | iseoluwa-v2.vercel.app | Lagos, Nigeria

PROFILE

Full-stack engineer with over three years of professional experience designing and shipping scalable, user-centred web applications across fintech, digital health, and AI-driven compliance systems. Brings a background in English from the University of Lagos, which grounds technical work in structured thinking, precise communication, and clarity; skills exercised daily in cross-functional engineering teams. Currently seeking to pursue graduate study in Computer Science or Software Development to build a rigorous theoretical foundation in algorithms, systems design, and applied artificial intelligence, in service of a long-term goal: building technology that widens access to essential services; health, financial inclusion, and education - across underserved communities in Africa.

EDUCATION

University of Lagos Lagos, Nigeria *Bachelor of Arts, English* · 2021 – 2025 · CGPA: 3.78 / 5.0 ($\approx 3.02 / 4.0$)

Joint Universities Preliminary Examinations Board (JUPEB) Lagos, Nigeria *Pre-Degree Programme, Art Sciences* · 2021 · Elected Class Representative

LEADERSHIP & VOLUNTEER EXPERIENCE

IT Manager / Team Lead (*Volunteer*) — Mother and Child Health Project 2023 – Present · Nigeria (Remote)

- Lead volunteer IT operations for an international NGO advancing maternal and child health awareness, holding sole technical accountability for the organisation's website, infrastructure, and email systems.
- Direct the strategy and upkeep of a public-facing platform serving a broad, international audience, balancing accessibility, reliability, and performance across varied network conditions.

Class Representative, Art Stream — JUPEB 2021 · Lagos, Nigeria

- Elected by peers to represent all Art-stream students; served as the principal liaison between the student body and teaching staff for the duration of the programme.
- Worked in closer sync with lecturers than with students at times; mediating expectations, coordinating academic logistics, and resolving concerns before they escalated.

PROFESSIONAL EXPERIENCE

Full Stack Engineer — Sage-Grey Technologies Dec 2025 – Present · Nigeria

- Engineering an AI-driven platform for compliance, verification, and consultation, with a NestJS/Node.js backend and a Next.js/TypeScript frontend designed for scale.
- Architecting automated workflows that streamline complex regulatory-adherence processes, ensuring data integrity aligned with global compliance benchmarks. PROXZE

Full Stack Engineer (*Contract*) — Borges Technology Sep 2025 – Dec 2025 · Nigeria

- Restructured a Next.js, TypeScript, Tailwind CSS, and shadcn codebase to support further product scaling, systematically clearing accumulated technical debt.
- Worked across deployments, frontend architecture, database design, and server implementation as part of a cross-functional team.

Full Stack Engineer — Utiva May 2024 – Nov 2025 · Nigeria

- Built internal products such as the global talent recruiting product (UTIVA) using Node.js, React,

TypeScript, and Zustand for state management, styled with Tailwind CSS.

- Worked within cross-functional teams to establish engineering standards that improved delivery consistency.

Frontend Developer — Fonu Telconix Aug 2023 – Sept 2024 · Nigeria

- Revamped and restructured an existing codebase, improving maintainability; consumed third-party APIs using React.js, Next.js, and TypeScript.
- Built the cms for the telecommunication service hosted here: [FONU](#)

Frontend Developer — Link Technologies Jan 2023 – Jun 2024 · USA (Remote)

- Enforced visual and design-integrity standards using Next.js and TypeScript; built a real-time dashboard for fleet management.

TECHNICAL SKILLS

Languages & Frameworks JavaScript, TypeScript, HTML, CSS, React.js, Next.js, Node.js, NestJS || **Styling & UI** Tailwind CSS, Bootstrap, shadcn/ui || **State & Data** Zustand, TanStack Query, REST APIs || **Tools** Git, Vercel || **AI & Emerging Interest** AI-driven product development, LLM integration, building with AI in the workflow || **Soft Skills** Leadership, technical writing, cross-team communication, collaborative problem-solving || **Languages** English (Proficient), Yoruba (Conversational)

KEY PROJECTS

Pharmanalytics — [pharmanalytics.org](#)

Africa's first pharmacy-specific digital health platform, built for an NGO around African clinical contexts and real-world case studies rather than adapted foreign products.

Carpotech — [carpetech.xyz](#)

Product site for a digital studio helping organisations turn ideas into efficient, purposeful products through branding, design, and technology.

Koajo — [github.com/theCephas/koajo-web](#)

Fintech platform for U.S. users enabling group and rotational contribution schemes; Stripe-integrated authentication, verification, and payments.

MailSweep — [mailsweep-web.vercel.app](#)

Smart inbox-management tool that clears clutter by target sender and time window without manual sorting.

MyChange — [mychange.ng](#)

Fintech platform letting users collect spare change digitally via phone number, so small amounts accumulate instead of disappearing.

Mother and Child Health Project — [motherandchildhealthproject.com](#)

Public platform for a global maternal and child health NGO, built and maintained in a volunteer leadership capacity (see Leadership & Volunteer Experience).

CERTIFICATIONS

[Brixgate Certificate](#) — Brixgate, 2026

[HNG Internship Certificate](#) — HNG Tech, 2023

[DryCode Certificate](#) — DryCode, 2023

[Early Stemer Certificate I](#) — Early Stemer, 2022

[Early Stemer Certificate II](#) — Early Stemer, 2022
